# 2021

## I TUTORI DI MOBILIZZAZIONE NELLA RIABILITAZIONE: IL LORO RUOLO, IMPORTANZA E APPLICAZIONE NELL'ITER RIABILITATIVO

**Codice Evento:** F202105

**Data:** 13-14 Marzo 2021

**Sede:** Cascina Scova Resort, Via Vallone 18 - Pavia

**Docente:** Dott. Silvio Tocco, Terapista Occupazionale, C.R.I.M.A.S. (PR)

**Responsabile Scientifico:** Dott. Silvio Tocco

**Destinatari:** Fisioterapisti, Terapisti Occupazionali, studenti del 3° anno dei rispettivi CDL, medici.

**Crediti:** 22,4 ECM

**Costo:** 380 euro, se ti iscrivi entro il 13 Gennaio 2021 il costo sarà di 340 euro. **SOCI AITO 340 euro**

**Posti Disponibili:** 24

**Termine Iscrizioni:** 13 Febbraio 2021

**Materiale Didattico:** Dispense e materiale termoplastico per la realizzazione dei tutori riabilitativi

DOCEO ECM Provider accreditato per i servizi di Educazione Continua in Medicina – Regione Lombardia Id.7133 del 16/03/16  
Accreditamento nazionale Age.Na.S. Id.6039 del 8/12/17  
Azienda certificata ISO 9001:2015 - Certificato N° C2016-00790

## BREVE PREMESSA:

Lo Splinting: tale tecnica ha avuto negli ultimi anni un notevole sviluppo ed ha creato un certo interessamento in tutte le branche della riabilitazione.

**I tutori riabilitativi** hanno una funzione preventiva, correttiva o funzionale, ma possono anche essere utilizzate per "bloccare" temporaneamente un'articolazione per simulare un'artrodesi, o per verificare la disponibilità di un paziente verso l'intervento chirurgico e soprattutto verso l'impegnativo percorso riabilitativo.

Questo corso è indirizzato ai **professionisti della riabilitazione che necessitano di migliorare l'efficacia dei loro interventi mediante l'uso di tutori** comunemente usati nella riabilitazione della mano e del polso; o a coloro che vogliono approfondire/integrare le proprie competenze in materia.

Il corso permetterà ai partecipanti di provare con mano alcuni materiali termoplastici a bassa temperatura, costruendo **7** tra i tutori **di mobilizzazione** più comunemente utilizzati in vari ambienti ortopedici e riabilitativi.

## OBIETTIVI:

- Sottolineare l'importanza dell'integrazione di tutori personalizzati alla patologia e alla persona per la buona riuscita del progetto riabilitativo.
- Evidenziare l'essenzialità dell'applicazione di tutori riabilitativi rapidamente e modificarli secondo l'evoluzione della patologia e obiettivi riabilitativi.
- Apprendimento, da parte dei discenti, delle proprietà dei materiali termoplastici a bassa temperatura, dei principi di costruzione, della classificazione e della nomenclatura dei tutori.
- Integrazione e rafforzamento delle competenze in ambito di costruzione dei tutori come scopo riabilitativo o come modalità riabilitativa aggiuntiva.
- Permettere ai partecipanti di provare con mano il materiale termoplastico a bassa temperatura, il gesso sintetico e il neoprene, costruendo un totale di 7 tutori di mobilizzazione comunemente utilizzati nella riabilitazione della mano e del polso in ambito ortopedico e neurologico.

## PROGRAMMA: 14 ORE

### Prima giornata

8:30 – 9:00 Registrazione partecipanti

9:00 – 11:00 Concetti generali sul rimodellamento dei tessuti molli. Accenni anatomici e patologici legati al trattamento ortesico di alcune patologie: rigidità con deficit in estensione di polso; rigidità con deficit in prono-supinazione AS; rigidità con deficit in posizione intrinseca minus; rigidità in pseudo-Boutonniere.

11:00 – 11:30 Pausa

11:30 – 13:00 Dimostrazione e prova pratica dei partecipanti: tutore STATICO-PROGRESSIVO a basso profilo ("leva") per rigidità con deficit in estensione di polso.

13:00 – 14:00 Pausa pranzo

14:00 – 15:30 Dimostrazione e prova pratica dei partecipanti: tutore STATICO-PROGRESSIVO senza profilo per rigidità con deficit in prono-supinazione di polso.

15:30 – 15:45 Pausa

15:45 – 17:00 Dimostrazione e prova pratica dei partecipanti: tutore STATICO-PROGRESSIVO senza profilo per rigidità con deficit in prono-supinazione di polso.

## **Seconda giornata**

9:00 – 11:30 Dimostrazione e prova pratica dei partecipanti: tutore STATICO-PROGRESSIVO senza profilo per limitazione della estensione passiva della IFP.

11:30 – 11:45 Pausa

11:45 – 13:00 Dimostrazione e prova pratica dei partecipanti: tutore STATICO-PROGRESSIVO a basso profilo per limitazione della flessione passiva MMFF abbinato alla tecnica dei GESSI SERIALI per limitazione della estensione passiva delle IIFF.

13:00 – 14:00 Pausa pranzo

14:00 – 15:00 Dimostrazione e prova pratica dei partecipanti: tutore STATICO-PROGRESSIVO a basso profilo per limitazione della flessione passiva MMFF abbinato alla tecnica dei GESSI SERIALI per limitazione della estensione passiva delle IIFF.

15:00 – 15:15 Pausa

15:15 – 17:00 Dimostrazione e prova pratica dei partecipanti: tutore DINAMICO in neoprene per rigidità lievi con limitazione della flessione IIFF. Tutore DINAMICO in neoprene per deficit attivi ("lag") in estensione delle IIFF.

17:00 – 17:30 Chiusura dei lavori e compilazione questionario ECM.

**MODALITA' DI ISCRIZIONE:** Per iscriversi è necessario compilare sul sito l'apposito modulo d'iscrizione relativo all'evento e seguire la procedura indicata per il caricamento della ricevuta di pagamento. Per gli eventi che presentano un numero limitato di posti farà fede per l'iscrizione la data di arrivo della domanda, accompagnata dalla certificazione del versamento della quota di iscrizione e dall'accettazione scritta delle norme generali.

Per completare la procedura di iscrizione è possibile provvedere al pagamento della quota tramite bonifico bancario.

Bonifico bancario intestato a:

• Date (from - to)	<b>2014 - ONGOING</b>
• Name & Location of Employer	Journal of Hand Therapy (Am. & Br.); Journal of Hand Surgery (Am. & Eur); SpringerPlus Manuscript; The Open Orthopedic Journal; Clinical Orthopedics & Related Research
• Type of Work Structure	Scientific Peer Reviewed Journals
• Work Title	Reviewer - Volunteer basis
• Main Tasks & Responsibilities	Review scientific papers related to hand therapy/surgery and splinting, to assist the editor in deciding on publication.

• Date (from - to)	<b>2011 - ONGOING</b>
• Name & Location of Employer	UNIVERSITÀ DEGLI STUDI DI MODENA E REGGIO-EMILIA - UNIMORE (Reggio-Emilia, Italy)
• Type of Work Structure	Clinical Placement Facility for UNIMORE - Occ. Th. B. Sc. Students
• Work Title	Student and Colleague Supervisor
• Main Tasks & Responsibilities	Manage and Supervise Clinical placements of 1st, 2nd and 3rd year students. Placement duration varies from 3 to 6 weeks. ERASMUS students from Belgium and Brazil undergo 4 months placements.

• Date (from - to)	<b>2011 - 2015</b>
• Name & Location of Employer	UNIVERSITÀ DEGLI STUDI DI MODENA E REGGIO-EMILIA (Reggio-Emilia, Italy)
• Type of Work Structure	University - Occ. Th. B. Sc. School
• Work Title	Contract Professor
• Main Tasks & Responsibilities	Lecturer of Orthosis Management "Insegnamento di Ideazione e Realizzazione di Ortesi e Ausili I e II" (30 hrs total).

• Date (from - to)	<b>2016 - ONGOING</b>
• Name & Location of Employer	UNIVERSITÀ DEGLI STUDI DI MODENA E REGGIO-EMILIA (Reggio-Emilia, Italy) & UNIVERSITÀ LA SAPIENZA (Rome, Italy)
• Type of Work Structure	Inter-University - Master's in Rehabilitation of the Hand
• Work Title	Contract Professor & Clinical Placement Supervisor
• Main Tasks & Responsibilities	Lecturer of Wrist Pathology and Rehabilitation (6 hrs total). Manage and Supervise Clinical placements of M. Sc. candidates. Placement duration is 1 week per student (approx. 10-12 students/year).

• Date (from - to)	<b>2012 - 2016</b>
• Name & Location of Employer	EUROPEAN FEDERATION OF SOCIETIES OF HAND THERAPISTS (EFSHT)
• Type of Work Structure	Volunteer-Based European Hand Therapy organization
• Work Title	Member of the Scientific Commission
• Main Tasks & Responsibilities	Review abstracts and other scientific material to be presented at European Hand Therapy Congresses

<ul style="list-style-type: none"> <li>• Date (from - to)</li> <li>• Name &amp; Location of Employer</li> <li>• Type of Work Structure</li> <li>• Work Title</li> <li>• Main Tasks &amp; Responsibilities</li> </ul>	<p><b>2013 - 2016</b></p> <p><b>ASSOCIAZIONE ITALIANA RIABILITAZIONE MANO (AIRM) (Milan, Italy)</b></p> <p>Volunteer-Based Italian Hand Therapy organization</p> <p>Treasurer &amp; European Delegate (EFSHT) and Interim International Delegate (IFSHT) - Member of Scientific Committee</p> <p>Member of the National Board of Executives.
